Allowable Subject Matter

Claims 10-11 are allowed.

The following is an examiner's statement of reasons for allowance: The best prior art of record, Applicant's admission of prior art, does not disclose or fairly suggest comparing the identified checking account MICR number associated with the individual presenting the check with the checking account MICR numbers stored in an exclusion list database to determine whether the individual presenting the check is an individual to be excluded from the gambling establishment, wherein the individual presenting the check is determined to be an individual to be excluded from the gambling establishment if the identified checking account MICR number associated with the individual presenting the check matches a checking account MICR number stored in the exclusion list database. A secondary reference, *Deaton* discloses use of MICR in connection with authorization of coupons (Col. 133, lines 36-51, at least), but does not contain any fair suggestion of application of MICR to identify an individual excluded from gambling.

The Sawada reference is cited for its general teachings on gambling.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
